I always say I'm a communist with my friends and family. Thanks.

Stanislav Yurin @stan_yurin · 2017/8/27

I think communism by definition force applies at least one level upper

M-of-N social key recovery in the
@htcexodus "blockchain phone"

I've been a proponent of such things
for a long time; really happy to see it
implemented and look forward to
seeing this feature get used more
and hopefully see wider adoption in
the crypto community.

Also @glenweyl this is arguably an
early step toward formalized non-
state-backed identity.

The phone also has a trusted
hardware chip to store keys securely
(not yet a hardware switch showing
the user when the trusted hardware
chip is actually controlling the screen
but I hear that's coming in the next
version?) and encryption by default

Zion Vault

Hardware-security for app developers

- Secure key management for wallets
- Basic wallet functions for apps to interface with crypto assets.
- Easy to use libraries and documentation.

<https://github.com/htczion/ZionVaultSDK>

A secure new world.

Exodus Bitcoin full node

Help secure and grow the Bitcoin network

- Validate transactions and blocks.
- Relay transactions and blocks to other nodes ==> that helps the network grow.

Help app developers make better wallets

- Broadcast app transactions into the network
- Notify apps when a transaction affects their wallet.
- Help increase all our privacy.

Coming to your Exodus 1 or 1s in October 2019!

Your brother's keeper.
